Permit No. 1975-59-OP Supplemental Permit No. 1978-2178

November 8, 1978

Brighton Landfill
1201 Dunn Road
St. Louis, Missouri 63138

Dear Mr. Evans:

Supplemental permit is hereby granted to Gene Evans d.b.a. Brighton Landfill to accept cement asbestos waste all in accordance with the plans prepared by Gene Evans dated August 10, 1978 and October 25, 1978 and received by this Agency on August 11, 1978 and October 26, 1978. This supplemental permit is further subject to the following special conditions:

- A. Cement asbestos waste shall only be accepted at landfill site in a moist condition, which will eliminate air emissions.
- B. Waste water treatment sludge shall also be utilized as an additional dust suppression agent on a daily basis, however waste water sludge shall not be utilized as daily cover.
- C. At the end of each operating day or within a 24 hour period, cement asbestos waste deposited at landfill, shall be covered with at least 6 inches of compacted non-asbestos containing soil material, in compliance with Federal Regulations: Section 61.25 Paragraph D and E-1.
- D. Protective breathing apparatus shall be supplied to all personnel in performance of duties regarding disposal of cement asbestos waste.

Except as modified in the above documents, the site shall be operated in accordance with the terms and conditions of Permit No. 1975-59-OP.

Very truly yours,

Thomas E. Cavanagh, Jr.
